

Faculty position in water resources

Faculty position in water resources at the University of California. We seek a broadly trained and experienced physical scientist with ability to conduct water resources management and policy research related to environmental and agricultural sustainability. This is an exciting opportunity to join a large group of existing faculty in our subject area. Position Announcement: Assistant Water Resources Specialist in Cooperative Extension and Assistant Professor For additional information concerning the position and to submit application materials, please visit <http://recruitments.ucdavis.edu/>

Thank you.

Prof. Greg Pasternack
Hydrology Program, UC Davis
